

INTRINSIC VALUE EQUITY ADVISORS

About company-

Texmaco Rail & Engineering Ltd, The co. is involved in the business of manufacturing Rolling stock, hydro-mechanical equipment, steel castings & construction of Rail EPC, bridges, and other steel structures.

Texmaco has traditionally been a leader in development of new designs for the railway wagons in India and continue to be engaged in new product development. Co. remains focused on increasing our foot-print in the wagon business. Indian Railways plays a key role in the economy with intermodal share of rail in freight traffic and the demand for railway wagons is likely to remain robust in the next few years, both from Indian Railways, exports and Private sector. There is a major thrust on electrification of the entire railway network and upgradation of Rail Infrastructure.
